#hotelfreienhofcaresforyou concept of protection

Dear guests

The spread of the Corona Virus has a big impact on our daily life and we are all facing major challenges. To protect oneself and others from the virus and how to handle the situation will continue to be a part of our everyday life.

In our hotel we take the issue of security from the virus and the reinforced hygiene very seriously. We developed an extensive concept of protection which we implement and realize in the whole company every day.

Our guest shall not only feel welcomed, but they shall also recognize that we will do our best to make them feel safe and secure.

With **#hotelfreienhofcaresforyou** we defined many measures which include PROTECTION, SECURITY AND RESPONSIBILITY. Our team cares for our guest and their health and we all do our best to stay healthy!

**Dear guests, we want to thank you sincerely for your loyalty!
Stay healthy!**

General rules

If symptoms of illness occur, guests are asked to stay in their hotel room and employees will be sent home immediately. They are instructed to follow the isolation rules of the Federal office of public health FOPH (see www.bag.admin.ch/isolation-und-quarantaene).

The company informs the employees about their rights and protective measures in the company. This includes in particular the information of particularly endangered employees. The company will display the protective measures in accordance with the FOPH in the entrance area.

The guests are to be made aware of the distance rules and the avoidance of mixing the groups of guests. The company regularly instructs employees on the hygiene measures to be taken and on how to deal safely with customers.

Personal data / contact details

The company will use the data exclusively for the stated purpose. The company keeps the data for 14 days and destroys them completely after that; the explicit consent of the person concerned for further processing of the data is reserved. The cantonal medical service may request the contact details if it deems it necessary.
